

Event: The Mechanics of Lean Deployment
Speakers: Debra Levantrosser
Date: October 5, 2015
Location: Michigan Technological University in Houghton, MI
We want to thank Michigan Tech
For their generosity for sponsoring this fantastic event!

The Michigan Lean Consortium (MLC) partnered with Michigan Tech for an event called “The Mechanics of Lean Deployment” with Debra Levantrosser on October 5, 2015.

Participants learned about the actions you can take to support a successful Lean deployment in your organization, from establishing certain lean positions (champions and sponsors) to determining whether to first deploy a certain tool organization-wide or whether it’s better to pick an area/line/floor within the organization and focus deployment before spreading to other parts.

Approximately 21 people attended this event in Houghton.

The mission of the MLC is to offer a diverse network of knowledgeable lean professionals who come together to share innovative practices. The organization aims to create a lean culture in Michigan to ensure sustainable competitive advantage, which could translate into healthier businesses that offer more job opportunities leading to economic growth in the state.
